

HowAI Suite

AI visibility, governance evidence and brand-accuracy workflows under one written scope.

Starting price	USD 2,499 per month
Commercial term	Annual agreement; final scope and total confirmed in writing before payment
Purchase path	Sales-assisted scope review; a pilot request does not create a charge or subscription
Payment processing	Paddle acts as merchant of record for eligible online transactions and displays applicable tax and final total

Baseline product scope

Component	Included baseline
HowAICite	Agency Pro workspace for AI-answer evidence, citation gaps, opportunity work and before/fix/after proof.
HowAISafe	AI-system inventory, explainable risk triage, control ownership, evidence artifacts and audit history.
HowAITrust	Observed-claim review against canonical facts, correction decisions and recheck evidence.
Shared layer	One account model, scoped roles, evidence handoffs, onboarding plan and written success criteria.

What changes the final scope

The written order records websites, brands, markets, AI systems, saved questions, provider observations, seats, data ownership, retention, onboarding, evidence exports, implementation work and acceptance criteria. The starting price is not a promise that every requested integration or control is included.

Not standard or implied

SOC 2 certification, SAML/OIDC SSO, SCIM, customer-managed encryption keys, guaranteed data residency, a public API, white-label reporting and a contractual SLA are not standard capabilities today. A feasibility review may be requested, but a capability is included only when the written scope identifies its current status, delivery plan and acceptance evidence.

Commercial and buyer terms

Topic	Public commitment
Before payment	HowAI supplies a written scope. Paddle Checkout shows the final total, applicable tax and transaction terms before confirmation.
Renewal and cancellation	The enterprise order controls the commercial term. Self-service HowAICite plans are separate monthly subscriptions and can be canceled through the Paddle customer portal.
Refunds	Eligibility follows the written order, applicable law and the public Refund Policy. Approved refunds are processed through Paddle to the original payment method.
No guaranteed outcome	AI answers vary by provider, model, time, account and location. HowAI sells measurement and evidence workflows, not guaranteed rankings, citations, traffic or revenue.
Security boundary	Current controls and unavailable enterprise features are stated at howaicite.com/security .

Seller and contact

HowAI Suite is created and operated by Nguyen Thanh Dan, an individual seller based in Hanoi, Vietnam and trading under the Danhoangda and HowAI product brands. Product and buyer support: howaicite@gmail.com.
